

API 610 PROCESS PUMP

PUMP MODEL

HSB/HDB

Catalog No. CS1860E*

Design

Double case, Centerline support
Radial split, Multistage
Axial split Double Volute inner casing
Opposed impeller arrangement
Double suction 1st impeller for HDB
Full compliance with API 610
Low NPSH performance for HDB

Application

Water Injection
Petroleum refinery
Petrochemical Industry
Boiler Feed
Ammonia Feed
Other Industries

Rating	
Capacity	as Required
Head	as Required
Temperature	as Required
Flange Rating	upto ANSI Class 2500 lb Others are also available
