

API 610 PROCESS PUMP

PUMP MODEL

KS

Catalog No. CS1060E*

Design

Centerline support, Radial split
Double Volute casing
Double suction impeller
Full compliance with API 610
Pull Out Design of rotating assembly
Low NPSH performance

Application

Petroleum Refinery
Petrochemical Industry
Chemical Industry
Other Industries

Rating

Capacity	upto 5500 m ³ /h (24200 U.S.gpm)
Head	upto 550 m (1800 ft)
Temperature	-100 C~+450 C (-150 F~+850 F)
Flange Rating	ANSI Class 300 lb as standard Others are also available
