

SUBMERSIBLE DEWATERING ES & EA

FEATURES

- Light weight with durability; casing in SUS 304 (2.2 to 5.5 kW)
- Water - cooled motor permits continuous operation at low water level.
- Highly resistant impeller suitable for civil engineering work.

HEAVY DUTY SAND PUMPS ENZ2

FEATURES

- Heavy duty for slurry and sand pump.
- High-chromed hardened cast iron impeller, suction cover effectively prevent wear and work under tough conditions.
- Non-overloading motor design for longer operating life.
